Szkolenie: HPE

HPE OneView for Compute

Cel szkolenia:

This class covers HPE OneView functionality for compute products such as HPE ProLiant systems, HPE Apollo systems and HPE Superdome Flex. This class does not cover HPE Synergy or HPE BladeSystem. Students learn how to deploy, configure and use HPE OneView, including automation processes and integration with other components.

Course objectives

This course equips students with the skills and knowledge to:

- Use HPE OneView to manage and maintain firmware
- Implement server and networking configurations
- Monitor the data center
- Respond to issues

Audience

This course is for system, network and storage administrators, and consultants who manage and monitor an HPE environment. It is also a good fit for system architects anticipating the implementation of HPE OneView, and administrators that use HPE OneView to manage supported components (excluding HPE Synergy and HPE BladeSystem).

Plan szkolenia:

- HPE OneView Features
- HPE OneView Deployment Process
- Components Supported in HPE OneView
- HPE OneView Licensing
- HPE OneView Configuration Process
- Server Profile Features for HPE ProLiant and HPE Apollo Systems
- Server Profile Features for HPE Superdome Flex
- Hypervisor Cluster Management
- HPE OneView Storage Management Features
- HPE OneView Reporting Functionality
