Szkolenie: Aruba

Orchestrating Data Center Networks with HPE Aruba Networking Fabric Composer

Cel szkolenia:

Aruba Fabric Composer allows a network administrator to orchestrate data center fabrics using a guided, step-by-step approach. Aruba Fabric Composer applies best practice configurations and ensures a fast and error-free deployment. This course will help a student understand and use Aruba Fabric Composer in a datacenter environment.

Objectives

After you successfully complete this course, expect to be able to:

- Describe Aruba Fabric Composer features and functions
- Install, operate and manage Aruba Fabric Composer
- Manage Switches with Aruba Fabric Composer
- Create AOS-CX VSX pairs and VSF stacks
- Create a layer 2 data center fabric
- Create a layer 3 / leaf-spine fabric with a VXLAN overlay and an EVPN control plane
- Integrate with Aruba NetEdit, HPE Servers using ILO Amplifier, and VMware vSphere

Target Audience

Network engineers with 2-3 years of experience that need to design, manage and troubleshoot data center networks.

Plan szkolenia:

- Aruba Fabric Composer Introduction
  - Data Center Network introduction
  - Data Center design
  - Aruba Fabric Composer (AFC) fabrics
  - AFC integration with multiple platforms
- Installing Aruba Fabric Composer
  - Install options
  - Hardware requirements

Oddział w Warszawie
Nr konta: PL 20 1600 1462 1853 6451 3000 0001

    - AFC install using OVA
    - AFC install using ISO
    - Licenses
- Operation and Administration
    - Graphical user interface
    - User creation
    - LDAP integration
    - Logs and troubleshooting
- Switch Management
    - Discovery
    - Configuration
    - Management
    - Monitoring
    - Upgrades
- AOS-CX Virtualization and Stacking
    - Virtualization technologies
    - VSX
    - VSF
- Leaf-Spine Introduction
    - L2 Leaf-Spine
    - L3 Leaf-Spine
- EVPN
    - Underlay and overlay concepts
    - Configure a data fabric with EVPN overlay
- Integration with HPE Aruba
    - Integrating AFC with HPE products
    - Key advantages of watch integration
- VMware Integration
    - Integration with VMware products and solutions
    - AFC integration benefits to VMware vSphere, SDDC and NSX-T
- Nutanix Prism Integration
    - Integrate AFC and Nutanix Prism and its benefits
- Rest API
    - Rest API operations and methods
    - AFC API Explorer
    - External resources for AFC automation

Wymagania:

Aruba highly recommends learners have a networking knowledge equivalent to the Aruba Certified Switching Professional (ACSP) certification. Additionally, knowledge of VXLAN and MP-BGP technologies and configuration are recommended.

Poziom trudności

Certyfikaty:

The participants will obtain certificates signed by Aruba Networks.

Prowadzący:

Aruba Networks Certified Trainer
