Training: AWS
Becoming an AWS AI Business Strategist

TRAINING GOALS:

The AWS AI Business Strategist: Role-Based Training is an instructor-led course designed for business and technology leaders responsible for shaping, sponsoring, and scaling AI initiatives within their organizations. Instructors model how to think like an AI strategist using case studies. Professionals learn how to lead AI strategy engagements from customer diagnosis through enterprise deployment. The training provides a framework for understanding what an AI strategist does and multiple use cases to practice those tasks. The simulation on Day 2 provides an opportunity for learners to synthesize their learning in an end-to-end AI strategy challenge. Participants leave with actionable tools: strategic frameworks and guided walkthrough documents- all contextualized within the AWS AI ecosystem. The course is aligned with the certification exam domains and offers a role-based perspective for learners interested in taking the exam.

Course objectives

In this course, you will learn to do the following:

- Transform ambiguous business challenges into scoped, AI-appropriate problem statements.
- Apply the 3D framework (Discover, Design, Deliver) to assess organizational readiness and map problems to AI capabilities.
- Evaluate tradeoffs between business objectives and responsible AI principles, balancing value, feasibility, risk, and ethics.
- Design pilot strategies with measurable success criteria and phased scaling paths to enterprise deployment.
- Facilitate AI change management by addressing workforce concerns and structuring cross-functional teams.
- Explain core AI/GenAI concepts to evaluate solution feasibility and inform build-buy-partner decisions.

Intended audience

This course is intended for:

- Business executives and senior leaders responsible for AI strategy

Compendium Centrum Edukacyjne Spółka z o.o.
ul. Tatarska 5, 30-103 Kraków, tel.: (12) 298 47 77
ul. Postępu 18B, 02-676 Warszawa, tel.: (22) 417 41 70
BNP Paribas Bank Polska S.A.

USD: PL 52 1600 1462 1853 6451 3000 0007

- Product managers and Program managers driving AI initiatives
- IT and Technology leaders overseeing AI adoption
- Risk, compliance, and governance professionals
- Organizational change management and HR leaders supporting AI transformation

CONSPECT:

- Module 1: The AI Business Strategist's Toolkit
  - The AI business strategist's role
  - The Enterprise Strategy Layer
  - The 3D framework
  - Technical Foundations: What the AI Business Strategist Needs to Know
  - Activity: Scenario Triage
- Module 2: Discover: Problem, Readiness, and Data Foundations
  - Diagnose the Customer's Actual Problem
  - Assess Organizational Readiness
  - Establish Data Foundation
  - Activity: Discovery
- Module 3: Design: Capabilities, Governance, and Scope
  - Map Business Problems to AI Capabilities
  - Weave in Governance and Responsible AI
  - Specify POC scope and pilot success criteria
  - Activity: Governance in a Regulated Architecture
- Module 4: Deliver: Pilot, Change, and Scale
  - Build, calibrate, and evaluate the POC
  - Deploy bounded pilot and lead change
  - Scale from Pilot to Enterprise and Connect to Strategy
  - Activity: Deliver
- Module 5: Agentic AI: Architecture, Evaluation, and Production
  - Multi-Agent Architectures
  - Autonomy vs. Control in Depth
  - Generation, Evaluation, and Production
  - Activity: Break the Agent
- Module 6: Discover Together
  - Use Case Introduction and Framework Review
  - Simulation Debrief

- Module 7: Design Together
  - Map Pain Points to AI Capabilities
  - Governance by Design
  - POC scope and pilot success criteria
- Module 8: Deliver Together
  - Build, calibrate, and evaluate the POC
  - Deploy bounded pilot and lead change
  - Scale to enterprise platform
- Module 9: Summary and Continue Your Learning
  - Next Steps for Continued Learning

REQUIREMENTS:

We recommend that attendees of this course have the following:

- Business or technology leadership experience
- Familiarity with enterprise technology initiatives
- Basic understanding of cloud computing concepts
- Optional: AWS Cloud Practitioner Essentials (foundational cloud literacy)

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by AWS (course completion). This course also helps you prepare for the AWS Certified AI Business Strategist (AIB-C01) Exam (beta exam) and this way gain the AWS Certified AI Business Strategist title – Business level. AWS certification exams are offered at Pearson Vue test centers worldwide https://home.pearsonvue.com/Clients/AWS.aspx
