Training: Mile2
C)CSSM - Certified Cybersecurity Systems Manager

TRAINING GOALS:

Companies will lean on a Certified Cybersecurity Systems Manager, C)CSSM to create solutions for tomorrow's problems, today. When it comes to identifying critical issues and providing effective IS management solutions.

The knowledge and course content provided in the Certified Cybersecurity Systems Manager - C)CSSM will cover a measurable certification that demonstrates proficiency in the IS Management Field. The Certified Cybersecurity Systems Manager covers the skills and knowledge to assess threat analysis and risks, Risk & incident management, Security programs, IS security strategy and frameworks, Audit and Risk management creation of policies, compliance and awareness, as well as DR and BCP development, deployment and maintenance.

Upon completion

The Certified Cybersecurity Systems Manager students will have a strong foundation in Cyber Security & IS management standards with current best practices and will be prepared to competently take the CCSSM exam.

Each participant in an authorized Mile2 C)CSSM training held in Compendium CE will receive a free CCSSM Certified Cybersecurity Systems Manager exam voucher.
